

ENGLISH LEARNER MISIDENTIFICATION APPEAL FORM

Districts should note that the items detailed on this document must be submitted through the Conflict Reporting function located in the Accountability Reporting application. If and when criteria are met and approved by the Office of English Language Proficiency, the student may be removed from English Learner (EL) status.

If the EL misidentification occurred a previous school year, there are limited acceptable justifications for removing a student's EL status after the year in which initial misidentification was made. To review these scenarios, please refer to the English Learner Misidentification Appeals Process guidance document. For additional guidance regarding EL misidentification appeal eligibility in situations outside those noted in the guidance document, please contact the OELP at the contact information below.

Please complete and submit this form in addition to any additional supporting documentation through the Conflict Reporting function located in the Accountability Reporting application. Retain a digital copy of all submitted documents and record of the DCR identification number in a secure file at the district level. If and when this appeal has been approved, the documentation should be added to the student's cumulative file. Note that all appeals related to a previous year EL misidentification will be reviewed on a case-by-case basis and that submission of an appeal and supporting documentation should not be interpreted as automatic approval. Only if and when criteria are met and the appeal approved by OELP staff may the student be assigned corrected language status.

The following information must be provided by the submitting district.
