FOR FAMILIES

## SECOND GRADE

### What to expect:

Children in second grade enjoy singing and can “match pitch,” meaning they can hear a note and sing it the same way. They are learning about musical rhythm and melody and are singing, making up and changing songs, playing instruments and working with classmates on songs and performances. Encourage your child to sing with you.

At this grade level, children are learning more about music concepts and rapidly adding to their music knowledge. They are problem-solving, playing instruments, singing and dancing. They enjoy learning new songs and musical patterns as new concepts are introduced in class.

### By the end of the school year, your child will:

- Learn the five notes of the most-used music scale (*do re mi so la*).
- Have a greater understanding of rhythms and notes.
- Understand common musical meters (skipping, marching, etc.).
- Learn terms for the speed of music (tempo), the loudness and softness of music (dynamics) and other music concepts.
- Make up or change songs while singing or playing instruments.
- Dance and move alone in a personal space, with partners in a shared space and with a group.

### What to do at home:

- Ask your child to sing a round (a song where one person sings ahead of or behind the other) together. Popular rounds include “Make New Friends” and “Are You Sleeping?”
- Encourage your child to sing the National Anthem at sports events and sing “Happy Birthday” to others.
- Sing lullabies together to a baby, toy, doll or pet.
- Listen to music together in the car and at home.
- Go to short, age-appropriate concerts or musical performances together.
- Clap or move to the beat of a song. Dance together!
- Encourage your child’s musical interest by suggesting they practice an instrument like a ukulele or piano.

**Y**ou are your child’s first teacher. Learn how to support the goals of Oklahoma’s academic standards and why they are important for your child. Please be in regular communication with your child’s teachers and ask how you can support music learning at home. When schools and families work together as partners, it helps your child achieve academic success!

## FOR FAMILIES

### Fostering Curiosity

Children are naturally curious and motivated to learn about things that interest them. Since curiosity contributes to success in the classroom, it is important to encourage it at home. Play is a wonderful way to nurture curiosity in young children, so be sure to allow plenty of playtime. Encourage your child to ask questions, discover answers and explore their world.

Support your child's musical curiosity with questions like these:

- When you hear this song, what do you like about it? If you don't like it, why not?
- What voices and instruments do you hear?

If your child seems to have an interest in music, consider researching musical artists, then listening to them or watching their videos together.

### Fostering Communication

Build your child's vocabulary, thinking skills and curiosity by using new words and having conversations that include questions to make your child think. Communicating with others gives children a chance to see and understand that there can be more than one point of view about a given subject. Accepting these different ideas helps children learn how to get along with others, encouraging positive relationships with other children and a strong self-image.

Support your child's musical communication skills with questions like these:

- What do you think this song is about?
- How do you know? Did the words in the song tell you? Or was it the speed of the music or the instruments used?

### Fostering Connections

Making connections between different school subjects helps build your child's overall knowledge and learning. It's also important for your child to make connections between what they are learning at school and in the real world. Point out these connections to your child and encourage them to make them, too.

- Connect music with physical activity. Put on a popular song and dance with your child or dance to YouTube videos together.
- Share music from your childhood or teen years. Ask your child what they think of the music. Depending on the song, talk about the musical history of the time (for example, the grunge era or early hip-hop) or events that were happening in the nation (for example, patriotic country songs from the early 2000s).
